

WORLDS OF WARFARE — THE WEAPONS —

WEEK # 3: SURPRISE SECRET WEAPON

INTRODUCTION

As Christ-followers, we are in the heat of battle on enemy soil. Satan has had thousands of years to build up strongholds that fortify his empire. And with his reign coming to a close, he's fighting harder than ever. But our Commander says that our weapons have divine power to demolish strongholds. If this is true, if the strongholds remain in place, we either not using the weapons we have, or more probable; we don't know we have them. It's time for a strategy session. Let's get acquainted with our arsenal!

DISCUSSION QUESTIONS

1. What was your biggest takeaway from the message, and why?
2. Attitude is the filter through which we look at the facts. Often we look at the facts of a situation through the filter of things such as fear, pride, insecurity, negativity, etc. Is it possible that your view of the facts is filtered through such things? Which one (or another, if not listed) do you struggle with the most?
3. In spiritual warfare Satan is all about takeover and will take any territory we will give him. Is there any area of your life that you've left unguarded? An place you've left the door cracked open for Satan to enter and get a foothold?
4. Having a Christ-like attitude is the easiest thing in the world, yet most people won't do it. When has it been difficult for you to say, "God, you are right, and I am wrong?"
